For the Journal. "Nothing New."

If you search this wide world over, you'll find
That "nething new" has been e'er brought to mind,
But somewhere 'twas thought of before by mankind.
And now, gentle muses, your favor I sue,
Without your kind aid, I shall searcely get through,
For the subject I borrowed; an old one 'tis. too;
It's "nothing new," "nothing new."

The rail-road, that boasts of its "iron horse" fleet, In this age of progress nor deems it unmeet, With its sister-friend, Lightning in speed to compete Is "nothing new"—the prophet tells true,
Of carriages jostling the crowded streets through,
And tells us they ran like the lightning, too,
So that's "nothing new," "nothing new."

Even the Atlantic Telegraph must quit the Field, And Cyrus, though Honized, will find he must yield Precedence of origin to one, whose shield No noble name bears; but he thought of it, too, And on a small plan earried it through. His lot is an humble one; he's known but by a few; A Submarine Cable is "nothing new."

The goddess of Fashion, who rules the gay world. The goddess of Fashion, who rules the gay world.
And from pleasure to pleasure has her votaries hurl'd,
For hundreds of years, she's her banners unfurled;
The belle counts her rings, she has naught else to do,
She looks in the glass, and toys with her shoe.
But wise Solomon's wives no doubt did so too,
"Tis a sad waste of time, but 'tis" nothing new."

The flowers that are blooming so brightly to-day, The insects that sport in the sun's warm ray,
And the birds that warble their joyous lay.

[teo,
Are nothing new; ages ago, there were bright blooms
The sun shene as brightly; birds sang, it is true. And within Noah's ark gay insects there flew, And "nothing is new," "nothing is new."

The beautiful rainbow-that child of the sky-Has been loved and admired by millions, gone by. As their tho'ts have been raised to our Father on high And we also love the glorious view,
And gaze with delight on each brilliant hue, [blue.
And admire the sweet sight, with its back-ground of
Thoughit's "nothing new," "nothing new."

From childhood to manhood, from manhood to age,
The pen of the poet has checkered life's page
With darkening forebodings, by experience, sage.
It is sad to believe that this is all true—
That hearts are so false—sincero friends so few,
And with tender words spoken, the soul's naught to de. But 'tis "nothing new," " nothing new.

O, beautiful maiden, with chestnut-brown hair, Thy heart, in its innocence—levely and fair— Thou hast given away, to one whose care Should be to protect it. But eyes of blue.
Long before thine, have been sadly dimmed, too,
By bitter words spoken, that pierced the heart through.
Alas! 'tis not new, "nothing new."

Parents, you've seen your hopes buried low Children, you've tollowed trains, sable and slow; Friends, ye have parted in anguish and woe; Ah me! tis not new. Sickness and death will ever come, Sorrow and pain ever follow us through Our journey below; while evil and few Our days are here, where "nothing is new."

O. Heavenly Father, for thy guidance we pray, That nearer to thee we may live out each day, And ne'er from thy presence be tempted to stray, And when to this care-world we've bidden adieu, To thy home above; where to me and to you, BOWLING GREEN, Oct., 1858.

party and dismiss it from its high trust. The main subject then is, whether the Democratic party deserves to retain the confidence of the American people. In attempting to prove it unworthy, I think that I am not actuated by prejudices against that party, or by preposses sions in favor of its adversary; for I have learned, by some experience, that virtue and patriotism, and vice and selfishness, are found in all parties, and that they differ less in their motives than in

the policies they pursue.

Our country is a theater, which exhibits, in full operation, two radically different political systems; the one resting on the basis of servile or slave labor; the other on the basis of voluntary labor of freemen.

The laborers who are enslaved are all negroes, or persons more or less purely of African derivation. But this is only accidental. The principle of the system is, that labor in every society. by whomsoever performed, is necessarily unin tellectual, groveling and base, and that the laborer, equally for his own good and for the wel fare of the State, ought to be enslaved. The white laboring man, whether native or foreigner, is not enslaved only because he cannot, as yet, be reduced to bondage.

You need not be told now that the Slave System is the older of the two, and that once it was universal.

The emancipation of our own ancestors, Caucasians and Europeans, as they were, hardly dates beyond a period of 500 years. The greamelioration of human society which modern times exhibit, is mainly due to the substitution of the system of voluntary labor for the old one of servile labor, which has already taken place. This African slave system is one which, in its origin and in its growth, has been altogether foreign from the habits of the races which colonized these States and established civilization here.
